

THE 2ND INTERNATIONAL CONFERENCE ON HVDC CALL FOR PAPERS

The 2nd International Conference on HVDC (HVDC2016) will be held in October 2016, Shanghai, China. The conference will focus on the topic: "HVDC Technologies Lead to Global Energy Interconnection", and will discuss the latest research and real application achievements on the LCC-HVDC transmission, VSC-HVDC transmission, and DC power grid. The purpose of the conference is to promote the researches and applications of the HVDC technologies within worldwide.

Organizers: CIGRE China National Committee, Chinese Society for Electrical Engineering.

Topics:

- Topic 1: Classic HVDC/UHVDC Transmission
- Topic 2: VSC -HVDC Transmission
- Topic 3: Multi-infeed and Multi-terminal HVDC and DC Power Grid
- Topic 4: HVDC Equipment Technologies and Applications
- Topic 5: HVDC and DC Power Grid Simulation and modelling
- Topic 6: HVDC Project Techniques and Applications
- Topic 7: HVDC Project Operation and Management
- Topic 8: Other HVDC technologies

Submission:

Authors wishing to present papers are invited to submit full paper written in English, which should be less than 6 pages with an abstract limited to 500~1000 words. The paper content should include title, subject, main points, data and conclusions. The figures, charts, diagrams and pictures are welcome to use in the paper to help clearly express your ideas and achievements. Please specify author name, company, telephone number, fax number, address, corresponding author and email address and preferred way to present (by oral or post) should be contained in the full paper. For the format of the paper please see a Template attached.

Please submit the full paper to hvdc2016@csee.org.cn by the submission deadline.

Important Dates:

1. Deadline for full paper submission: 30th June, 2016.
2. Deadline for full paper modification: 31th July, 2016
3. Deadline for registration: 10th September, 2016
